# Data Cleanup

## REVIEW

## ANNOTATIONS 1

## HISTORY

### Meets Specifications

Congratulations on completing the project. All your answers are correct and well explained. Please check the annotation and comments for a detailed review.

Keep up the good work and all the best with future projects and submissions.

Happy Learning!!!

### Business and Data Understanding

The section is written clearly and is concise. The section is written in less than 250 words.

All following questions have been answered:

1. What decisions need to be made?
2. What data is needed to inform those decisions?

### Building the Training Set

The averages for each column is correct in the training set

Awesome: All the average calculations are correct. Good Work!!!

Outliers have been analyzed for each field in the training set.

The outliers are accurately identified.

The decision to keep, remove, or impute each outlier is well justified.

After pointing out all the possible outlier cities only one city should be decided upon to remove.

Awesome: The decision to remove Cheyenne is correct and the reason is well explained. Good Work!!!
